

```
package Virtual_Key_Repository;

public class LockedMeMain {
public static void main(String[] args) {

    // Create "main" folder if not present in current folder
    structure
        FileOperations.createMainFolderIfNotPresent("main");

        menuOptions.printWelcomeScreen("Virtual Key", "Bikki");

        HandleOption.handleWelcomeScreenInput();
    }
}
```
